

Tópicos Exclusivos por Conferência

Tópicos exclusivos do SBBD
(sem par semântico no VLDB)

- Scientific Workflow Data Processing Optimization
- Public Transportation Data Management
- Data Ecosystems and Economic Analysis
- Sentiment Analysis and Data Mining
- Data Schema and Evolution Analysis
- Spatial and Geographic Data Management
- Spatial-Textual Data Indexing
- Social Coding Collaboration Analysis
- Urban Traffic Anomaly Detection
- Brazilian Symposium on Databases
- Multimodal Image Retrieval and Data Processing
- Time Series Forecasting for Brazilian Environmental Applications
- Ontology Alignment and Topic Modeling

Tópicos exclusivos do VLDB
(sem par semântico no SBBD) — Top 10

- Database Query Processing and Recommendation Systems
- Cloud Database Systems and Clustering
- Machine Learning on Distributed Databases
- Database Schema Integration and Benchmarking
- Data Partitioning and Query Optimization
- Approximate Similarity Search and Community Detection
- Time Series Data Stream Analysis
- Blockchain and Distributed Ledger Databases
- Crowdsourcing Algorithms and Worker Selection
- Query Optimization in Distributed Analytics
